The winter weather didn't keep the Roanoke Chamber of Commerce from holding its annual legislative dinner in Richmond.

Business leaders who braved the drive dined with Roanoke area legislators.

The chamber has a full-time lobbyist who represents the group's agenda in Richmond.

Transportation continues to be one of the chamber's top priorities, including safety improvements along Interstate 81 and the construction of Interstate 73.

Investments in education and making health insurance more affordable also top the list.
